FAILURE TO FILE IS FATAL ERROR

Democrats Omit to File Certificates of Nominations with Clerk Fifteen Days Before Election

THE LAW IS MANDATORY

And Not a Democratic Candidates Name Will Ap- pear on the Ballot at the Election Nov. 6.

Through an unfortunate oversight, or more probably through the advice of an unskilled attorney, the Democratic candidates failed to file their certificates of nominations with the County Court Clerk fifteen days before the election, as required by law, as result of which not a single Democratic candidate, county or district, will appear on the ballot November 6.

Numerous instances of single candidates overlooking this important duty have occurred, but this is the first case where, to our knowledge, a whole county ticket has failed to qualify for a place on the ballot. The incident created a sensation in Democratic circles, and it is needless to say that the Democratic voters are vigorously denouncing the unpardonable stupidity of their leaders for failing to get their candidates on the ballots. An exasperated Democrat cynically remarked that he thought that at the next election the Demo-

cratic candidates should employ a Republican lawyer to look after the legal affairs of the ticket.

The Democratic wise owls held a meeting Wednesday night and decided to institute court proceedings to try to rectify the blunder, and will push the matter through to the Court of Appeals at once. However, we think, the court proceedings are undertaken with a view to allay the storm of indignation raised in the rank and file of the party rather than with any hope of getting the names of the candidates on the ballot. The law in question is mandatory, and similar cases have been repeatedly taken up to the Court of Appeals, and the decisions of that court have unanimously held that a candidate who does not file his certificate with the County Court Clerk fifteen days before the election, has finally and forever forfeited his right to have his name appear on the official ballot.

mania, 320,000; Serbia, 300,000; Belgium, 300,000; Greece, 300; Portugal, 200,000; Montenegro, 40,000; Siam, 36,000; Cuba, 11,000; and Liberia 400. San Marino and Panama also have small forces under arms.

Military experts do not regard these figures as entirely accurate but believe they represent in round numbers the comparative strengths of the contending armies as published recently. The War Department has many confidential reports on the forces of the Allies and considerable data concerning enemy armies, but this information is not made public for military reasons.

Germany and Austria have made every effort to conceal the precise numbers of their armies, but careful estimates of allied military intelligence departments have placed the total at about ten million, with Germany's force more than double Austria's.

LIST OF 37 CERTIFIED BY THE DISTRICT BOARD

There are yet 45 men wanting to complete the list of Ohio county's quota to the draft army. The call for the last number has not yet been issued, but the following names have been certified by the district board for service when the call is made:

Albert Taylor, Echols.
Henry Chambers, Whitesville.
Tallie T. Heflin, Simmons.
Govey Hines, Rockport.
Cecil Rhoades, Hartford, R. 5.
Nelson Blanchard, Simmons.
Leslie G. Shults, Neafus.
Lewis F. Stevens, Rochester.
Lon B. Smith, Hartford, R. 6.
Willie Tucker, Fordville.
Geo. Davis, Beaver Dam.
Arvil B. Stearnsman, Centertown.
Nathaniel Hudson, McHenry.
Cyrus Williams, Wysox.
Grover M. Brown, Ceralvo.
Edward Nall, Hartford.
Barney Baughn, Beaver Dam.
Ben H. Ferguson, Select.
Sam A. Collins, Echols.
Charlie Williams, Echols.
Robt. E. Lee, Prentiss.
Gilbert Westerfield, Hartford, R. 7.
Lonnie D. Vick, Beaver Dam.
Arthur Rhodes, Hartford.
Clyde W. Hawkins, Hartford, R. 4.
Lester H. Wright, Livia.
Hice D. James, Centertown.
Eugene Coleman, Cromwell.
Dudy E. Dempsey, Livermore.
Seth Riley, Hartford.
J. D. Ford, Hartford.
Seth Rhodes, Hartford, R. 5.
Hardin Riley, Hartford.
Rennis Barnett, Reynolds.
Harrison Maddox, Echols.
Gross Schroeder, Hartford.
Archie D. Maddox, Rockport.

A few other names were certified for service, but the local board was later ordered to hold up announcement pending appeals.

BUY 54,000 ACRES OF SOUTHERN COAL LAND

Knoxville, Tenn., Oct. 20.—Purchase of a tract of fifty-four thousand acres of coal land in Scott County, near Oneida, by A. B. Day and John F. Shea, of Knoxville, has been announced here. The tract is said to be the largest single coal property in the South and more than \$500,000 is involved in the deal.

Five coal operations already have been opened on the tract and additional development work is in progress.

The tract is near the Glen Mary oil guhners and the new owners expect to sink oil wells that will yield a productive flow.

NEGRO IN WOODPILE

The failure of all the Democratic candidates to file their certificates of nomination is a problem difficult of solution. It is hardly possible that all the candidates, including Judge Glenn, a lawyer of ability, and the Democratic managers, should have been ignorant of a law that has been in force for years, and one so vital to the interest of the Democratic party and its candidates. The condition is so utterly absurd that many Republicans believe that it was a premeditated scheme for partisan advantage.

The Democrats have instituted mandamus proceedings in the courts to compel the Clerk to place the names of their candidates on the ballots, but their attorneys know the case cannot be determined in the courts until after the election.

It is surmised that the Democratic managers saw the hopelessness of their ticket and devised this scheme with the hope of having the election held void by the courts, and then going before the people at a special election with a plea that the Republicans were in some way responsible for the Democratic misfortune.

It appears more reasonable to believe that it is a clumsy scheme to accomplish some partisan advantage than to think that all the Democrats in the county were ignorant of a plain statute, long in operation, and indispensable to the appearance of the names of their candidates on the ballot.

OHIO COUNTY TAKING BONDS

NEAR \$75,000 SUBSCRIBED FOR AT CLOSE OF YESTER- DAY.

CAMPAIGN SUCCESSFUL

Many Are Eager To Take All Possi- ble To Pay For When Proposi- tion Is Understood.

The drive to place Ohio County's quota of the bond issue, of \$90,000, with our citizens has resulted in placing near \$75,000 within the county in the past few days. There is but little, if any doubt to the full amount being subscribed for, at the close of the campaign, which has been managed by the committee of bankers, of which John H. Barnes, of Beaver Dam, is chairman. When persons with a small amount of money which they can possibly spare, are made to understand the nature of the loan called for by the Government and that the bonds are tax free, interest bearing at the rate of four per cent, payable semi-annually are generally ready and in many instances, anxious to take these bonds in such amounts as they are able to pay for.

Following is a complete list, so far as we were able to get it at press hour, of all persons subscribing for this the second Liberty Loan, by Uncle Sam:

WILD CAT IS KILLED
NEAR FORDSVILLE

We heard a report last week that a real wildcat had been killed near Fordsville, but the story appeared to us so improbable that we declined to mention it. However, we are more recently advised by responsible persons who saw the mammoth feline that it was a genuine old time wildcat. It measured four feet and three inches from tip of nose to end of tail, and was gray with age. All its teeth were missing except the four large ones used in grasping its prey. A Mr. Awbrey was out possum hunting and shot the animal after his dog had chased it up a tree. The farmers of the neighborhood had been missing fowls and small pigs for several months and their losses are now accounted for.

NEW STEEL BRIDGE
ACROSS PUBLIC DITCH

A new steel bridge costing \$5,000 is in process of construction across the public ditch, on the Owensboro and Leitchfield road near Deantfield. The bridge is built of steel on a concrete base. Judge John B. Wilson, Esquires Ben Rice and Ben Taylor are the committee.

Michigan believes it has enough salt to supply the world for 2,000 years.

GERMAN LINES BADLY SMASHED

FRENCH SOLDIERS ON AISNE FRONT MAKE FIERCE ATTACK.

7,500 PRISONERS TAKEN

And Enormous Supplies of War Ma- terial Fall Into Hands of Allies.

Paris, Oct. 23.—In one of the swiftest and most dashing blows of the war the French troops to-day smashed through the German lines north of the Aisne to a depth of more than two miles at one point, inflicted heavy losses on the enemy and captured more than 7,500 prisoners and twenty-five heavy guns and field guns.

Several important villages also fell into the hands of the French, according to the War Office announcement to-night.

The text reads:

"North of the Aisne the attack which we launched this morning developed under extremely brilliant conditions. Notwithstanding mist and rain our troops attacked with admirable enthusiasm formidable organizations of the enemy which were defended by the best troops of Germany, supported by heavy artillery.

Troops Smash Forward.

"In their first dash our soldiers captured the line indicated by the quarries of Fruty and Böhery. A little later Malmaison fort, in the center, fell into our hands.

"Pushing their advance still further, our troops, after a desperate engagement, in which they gave proof of their irresistible snap, drove the enemy out of the quarries of Montparnesse which had been partly crushed by our big shells.

"On the left our progress was continued with the same success, the villages of Allemant and Vaudesson remaining in our power, while on the right our troops carried their line onto the heights dominating Pargny-Filain.

Enemy Losses Large.

"Finally, in the center, our troops drove fresh enemy reserves helter-skelter and captured, in a violent struggle, the village of Chavignon. At this point our advance reached a depth of three and a half kilometers (about two and a fifth miles).

"The enemy losses in the course of the day were large, in addition to those inflicted on him by our artillery preparation. The number of prisoners counted up to the present exceeds 7,500. In the enormous amount of material captured we have counted twenty-five heavy field cannon.

"Notwithstanding the unfavorable weather, our aviators carried out with audacity the missions imposed upon them, their machines flying fifty meters above the lines."

In Flanders both the British and French troops are holding all the gains made in Monday's drive north-east of Ypres, except at one place on the southern fringe of the Houtholst forest, where the Germans in a furious counter attack forced a slight retirement by the British.

On the other fronts no important engagements are in progress, except in the nature of bombardments. On the Julian front of the Austro-Italian theater the artillery activity again has become intense. An Austrian attack with infantry in the Cadore region was repulsed by the Italians with heavy losses.

COURT OF APPEALS ON PLEA IN BAR

The Court of Appeals has just handed down a decision in an appeal by the Commonwealth against Tom Crowder in which the legality of an accused going before a magistrate or other minor court, confessing a fine and pleading that act in bar of further prosecution, is clearly stated. The court held that such a plea is a bar to further prosecution unless the commonwealth can show collusion between the inferior court and the defendant, and the burden of proof is on the commonwealth to show such collusion.

BLUEGRASS HAS COAL FAMINE ON

CANTRILL ADVISES MINES BE RUN AT POINT OF RAY- ONET.

Washington, Oct. 23.—Kentucky's Bluegrass region, on the edge of one of the richest coal fields in the country, virtually is without coal. Representative Cantrill, of Kentucky, today told the Fuel Administration, urging immediate relief, he argued that if necessary the Kentucky mines, where there were recent strikes, should be operated at the point of the bayonet.

Mr. Cantrill presented a telegram from his home town of Georgetown, which said that snow was falling and there was not a lump of coal in the place. Similar conditions prevail throughout his district, he said. At Lexington the power plant furnishing lights for the city and power for a large interurban electric line had been forced to close three times last week for lack of coal. To give some measure of relief, he continued, city officials had confiscated coal in the railroad yards, but were able to get only a car at a time.

Fuel Administration officials said the recent strikes in Kentucky and Tennessee were responsible for the situation and they promised to afford relief as quickly as possible.

To Distribute Fuel.

Pittsburg, Pa., Oct. 23.—Kentucky operators here attending the meeting of the Coal Association late today formed a committee to take charge of the distribution of coal in Eastern Kentucky, where it is said there is a serious coal shortage. A committee of ten operators representing each of the five large districts of the section was appointed. Calvin Holmes, of Cincinnati, was made chairman of the committee.

The available supply, which the operators admitted had been decreased by recent strikes, will be distributed among the cities where there is a shortage. Every effort will be made by the operators, it was said, to relieve the acute situation in Lexington, Paris, Georgetown and other cities in the section lying east of Louisville.

Snow fell here at intervals during the day Tuesday.

WINTER NO BARRIER TO DRIVE OF ALLIES

SECRETARY OF WAR BELIEVES TEUTONS ARE TO GET LIT- TLE REST.

Washington, Oct. 23.—Military experts here do not expect winter to halt the great allied drive against the Germans in Flanders. Secretary Baker's weekly review of war operations issued last night discloses the belief of the War Department that potency of material and men will enable the British and French commanders to triumph over natural obstacles and continue forcing the enemy backward without waiting for spring.

The review touches for the first time upon the American expeditionary forces in France, declaring the men, after three months' intensive training, are in efficient fighting trim and splendid physical condition.

In dwelling upon the importance of the battle of Flanders and its effect upon the morale of the Germans, the War Secretary declares it is apparent that the German high command planned the recent expedition against the Russians in the Riga sector in order to bolster up morale and meet impending internal difficulties. By extending her lines in the East, he adds, Germany has merely added to the length of her line of communications and increased confidence in the final allied victory.

38,000,000 MEN UNDER ARMS, ALLIES 27,500,000

Washington, Oct. 22.—At least thirty-eight million men are bearing arms in the war.—27,500 on the side of the world allies and 10,600,000 on the side of the Central Powers, according to latest War Department compilations from published reports in various countries. These figures do not include naval personnel strength, which would raise the total several millions.

Against Germany's 7,000,000, Austria's 3,000,000, Turkey's 300,000 and Bulgaria's 300,000, are arrayed the following armed forces: Russia, 9,000,000; France, 6,000; Great Britain, 5,000,000; Italy, 3,000,000; Japan, 1,400,000; United States, more than 1,000,000; China, 541,000; Ru-

FARMERS MUST BE NATION'S HELPERS

SPRIT OF ISRAEL PUTNAM IS NEEDED IN ALL RURAL COMMUNITIES

LIBERTY CALLED AND HE WENT

Some Spirit of Freedom is Calling to American People Today—Are You Responding Like a Farmer?

The spirit which animated Israel Putnam more than a century ago is what is needed in America today in order to meet the needs of the nation in the war against Germany and the needs of the nation in the war against the forces of reaction.

Putnam was giving the nation's production of food and clothing and the nation's production of arms and ammunition. It was during this time that Putnam's first volunteer regiment was raised.

Did he follow or lead? Did he go or stay? He went. He went to the front and he went to the rear. He went to the front and he went to the rear. He went to the front and he went to the rear.

Liberty is at stake again. Your liberty and the liberty of the rest of the world. Every day the news tells us that the forces of reaction are trying to take away from us the right of free speech, the right of free assembly, the right of free press.

But they are not in the field. They are not in the field. They are not in the field. They are not in the field. They are not in the field. They are not in the field.

But it is time that these men, as well as their only neighbors, should go to the front and they should go to the rear. They should go to the front and they should go to the rear. They should go to the front and they should go to the rear.

ARKANSAS TENANT FARMERS TO BUY LIBERTY LOAN BONDS

FARMER TO HELP MAINTAIN FREEDOM HE HELPED WIN

In the first Liberty Loan Campaign, many of the farmers of the country were not reached, and not many from the rural communities were seen.

There were several reasons for this. The first was that the time was not right. The second was that the money was not there. The third was that the people were not ready.

Now, the time is right. The money is there. The people are ready. It is time for the farmers to help maintain the freedom they helped win.

They have already made splendid response to the demand for greater food production. The first loan largely overlooked the farmer—the efforts were concentrated in the cities.

The second campaign should give every opportunity for farmers as individuals and their organizations to support the government in its financial program. It is the highest expression of Americanism that all the people should help carry the common load in this critical hour.

THOMAS H. WEST BUYS \$250,000 IN BONDS

Declaring he made a subscription much larger than he could afford, because he appreciated the great necessity for the nation's defense, Thomas H. West, chairman of the St. Louis Liberty Loan, made the largest individual purchase of Liberty Bonds in St. Louis, in the sum of \$250,000.

In a statement issued after making the purchase, West declared he had done so because he considered it a patriotic duty to support the government and he believed Liberty Bonds were "absolutely safe."

"If you overestimate you can find a ready market for your surplus bonds," he said, "and if you have them after the war you are almost certain of a large premium. When we stop to think of what our soldiers will have to go through we should consider that subscribing for a good security to support them in the field is a very small thing to do, and we should take advantage of the opportunity, even to the point of sacrifice, if necessary."

U. S. RAILROADS ARE BUYING BONDS LIBERALLY

The railroads of the country are buying their "B" in response to the government's appeal to the public to make \$100,000,000 through the Second Liberty Loan.

The Chicago & Northwestern Railroad announces it will subscribe for \$1,000,000 of the loan. Two million dollars' worth is to be purchased by the Chicago, Milwaukee & St. Paul Railroad.

Announcement is made by the board of directors of the Pennsylvania Railroad that the company will subscribe to \$1,000,000 of the loan. This subscription is in addition to the subscription of the company.

A subscription of \$400,000 for the Tenth Federal Reserve District, with headquarters at Kansas City, is announced by the Chicago, Burlington & Quincy.

Clarkson Potter, chairman of the Burroughs Adding Machine Company, devoted his own time and that of his salesmen throughout the country one whole day to the sale of Liberty Bonds.

As a result of their campaign in St. Louis they received 100 subscriptions.

NOTE: PLEASE REMEMBER OVER 1,000 MILES

Low Angeles, Oct. 20.—It is not an uncommon sight to encounter a house upon wheels in the middle of a street and in the process of being transported to a new location some distance away, but it is seldom that a house is taken to pieces, the parts transported more than one thousand eight hundred and fifty miles, and once more put together again. This is exactly what has happened, however, with the residence of J. E. Storer, of this city. The Storer family recently decided to make its home hereafter in Edmonson, Conn., and for some reason not generally known to the public they took their house with them. A corps of workmen was engaged, the house taken down piece by piece, each carefully marked and done up in neat bundles and loaded upon a steamship for transportation to Vancouver, and thence by rail to Edmonson. It will not be long, therefore, until an American frame house, built of American lumber from floor to ceiling, appears in a Canadian city as the residence of the Storer family.

problem presented by the task of moving this great quantity of stuffs.

The task involves the supplying of all the necessities of life for sixteen non-productive cities of a population of 40,000 each and fifty-six smaller cities ranking in population from 300 to 2,000.

Sprains And Strains Relieved. Sloan's Liniment quickly takes the pain out of strains, sprains, bruises and all muscle soreness. A clean, clear, liquid easily applied, it quickly penetrates without rubbing. Sloan's Liniment does not stain the skin or clog the pores like musky plasters or ointments. For chronic rheumatic aches and pains, neuralgia, gout and lumbago have this well-known remedy handy. For the pains of grippe and following strenuous work it gives quick relief. At all druggists, 25 cents.

719 Enemy Residents in Japan. Tokio, Oct. 20.—According to an announcement made by the authorities, the number of enemy subjects residents in Japan at the end of July was 719. The majority are Germans.

Group. If your children are subject to cough and a bottle of Chamberlain's Cough Remedy, and when the attack comes on be careful to follow the plain printed directions. You will be surprised at the quick relief which it affords.

GOVERNMENT TO GET LEATHER FROM SHARKS. New London, Conn., Oct. 20.—A contract for 1,000 shark hooks, 300 to be completed in ten days, and 700 in twenty days after the first completion, has been awarded by the Government to J. W. Fordham, a blacksmith, of this vicinity.

There are to be three varieties of hook, eleven, ten and nine inches in length. A chain and swivel are to be attached to each hook.

It is reported from a Washington correspondent that the Government is about to prospect in a new leather field, that of shark skins. In a series of tests, a durable and satisfactory leather has been evolved from the skins of these fish. It is believed there is no reason why an industry may not be profitably started.

Carranza is Honored. Mexico City, Oct. 20.—The Congress of Bolivia has voted to bestow on President Venustiano Carranza the order of the Grand Cross of Mariscal.

Stop Left Over Coughs. Dr. Bell's Pine-Tar-Honey will stop that hacking cough that lingers from January. The soothing pine balsams loosen the phlegm, heal the irritated membrane, the glycerine relieves the tender tissues, you breathe easier and coughing ceases. Don't neglect a lingering cough, it is dangerous. Dr. Bell's Pine-Tar-Honey is antiseptic and pleasant to take, benefits young and old, get it at your druggist to-day. Formula on bottle. 25c.

FEEDING SOLDIERS IN CAMP ENORMOUS TASK. Chicago, Oct. 20.—Soldiers in training at the sixteen national army cantonments in the United States require approximately 2,500 carloads of food daily, according to statistics given out here by the Railroad War Board. It is estimated that at least five pounds of food is needed each day for each of the 1,000,000 men now training for the national army and national guard divisions.

Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes: "From the time I entered into womanhood . . . I looked with dread from one month to the next. I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse. . . . Nothing seemed to help me until, one day, . . . I decided to

TAKE

CARDUI

The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain. . . . It has now been two years since I took Cardui, and I am still in good health. . . . I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.

Key of Pennies is Exchanged for \$300 Loan in Bonds

Three years ago J. P. White, who sells newspapers at Edwinstown, Ill., decided he would save all the pennies he received. He accumulated a key of the coins, which he kept in a collar.

Last week he took the key to a bank and exchanged the pennies for \$300 worth of Liberty Bonds.

GREEKIAN DREAM ALMOST REALITY

COUNTRY BARELY MISSED BE- ING RULING POWER IN ASIA MINOR.

Athens—A dream of empire which would have made Greece a ruling power in Asia Minor along the route to the Orient came very near being realized at the opening of the war in Europe. This has just been brought out with official exactness in the mass of diplomatic documents laid before Parliament, and in statements by Premier Venizelos and the Minister of Foreign Affairs, M. Politis. Referring to the territorial concessions which Greece could have acquired at that time, M. Venizelos said:

"I had succeeded in obtaining the recognition of the rights of Hellenism over Western Asia Minor. And I can say without exaggeration that the day I received the communication of Sir Edward Grey speaking of very important territorial concessions on the coast of Asia Minor, was a day of rejoicing as keen as that when the treaty of Bucharest was signed, giving us Saloniki, Macedonia and new Greece."

Sees Progress in Greece.
"I who had known how small and feeble Greece was only three or four years ago, saw the stupifying bound she was about to make. This little Greece had now succeeded in occupying a place equal to that of the Great Powers in the settlement of the fate of Turkey which had been the apple of discord between the European Powers."

But as Asia Minor was a field of German ambition and hope, H. Venizelos said he found himself opposed not only by the then King Constantine, but also by the army General Staff, which, he declared, "served a policy purely Germanic." And with this opposition, backed by the King, the opportunity held out to Greece to become a great Power in Asia Minor was finally lost.

M. Politis, the Minister of Foreign Affairs, gave some of the details of these concessions, and told how near they came to being realized in two formal treaties.

Beneficial Policy Desired.
"Such was the desire of the Western powers," he said, "to have Greece adopt a policy mutually advantageous to them and to Greece, that they declared to the Hellenic government that they were ready to assure to Greece, in return for its co-operation in the war against Turkey, Smyrna and an important part of the hinterland."

After lengthy discussion, M. Politis said a double convention was concluded. But at this point the army staff intervened and succeeded in defeating the plan.

While these large territorial plans came to nothing, yet their definiteness indicates they may again be heard from when the final adjustment of the war takes place, for Greece is not unlikely to have the same aspirations toward Asia Minor, and the Western Powers the same willingness they have already shown to give Greece a foothold on this route to the Orient.

MODEL MINING TOWN GROWS UP OVER NIGHT

Knoxville, Tenn., Oct. 20.—Like towns built in the West during the wild gold fever rush of the days of '49, a model mining town has literally grown up over night in the center of the virgin field in Harlan and Letcher Counties, Ky.

Sixteen hundred houses will be completed within fifteen months, say officials of the United States Coal and Coke Company subsidiary of the United States Steel Corporation, which is behind the project.

At present 160 eight-room houses are under construction. After these are completed, the building of the others will begin. Forty-eight mill-

ion feet of lumber altogether will be used.

A total of 250,000,000 feet of lumber was bought this week at a cost of approximately \$150,000.

A temporary commissary building, 240 feet long by 60 wide, is also now being erected. The permanent commissary will be constructed after the construction of the 1,600 houses is completed. It will be of brick, and will cost between \$100,000 and \$125,000.

Chamberlain's Cough Remedy The Most Reliable.

"After many years' experience in the use of it and other cough medicines, there are many who prefer Chamberlain's to any other. Mrs. A. C. Kirstein, Greenville, Ill., writes, 'Chamberlain's Cough Remedy has been used in my mother's home and mine for years, and we always found it a quick cure for colds and bronchial troubles. We find it to be the most reliable cough medicine we have used.'"

STARS AND STRIPES BRING CHEERS IN PARIS

Paris, Oct. 20.—The Stars and Stripes still stir up big demonstrations of enthusiasm in the French capital, even the months have elapsed since the United States entered the war.

The grand finale at the Folies Bergere, the other night, brought out the flags and national anthems of the allied nations a la George Cohan. The British color and "God Save the King," brought a demonstration and a large number in the audience rose to their feet. The Italian, Belgian, Roumanian, Serbian, Russian and Portuguese flags all brought applause.

Uncle Sam had the big place in the tableaux. When a pretty girl strode on the stage waving the Stars and Stripes, and the orchestra swung into "The Star Spangled Banner," the house went mad. A Canadian soldier proposed three cheers for the Yanks. Uncle Sam received an ovation that would have gladdened the hearts of Americans everywhere.

Clear Your Skin in Spring.

Spring house cleaning means cleaning inside and outside. Dull pimply skin is an aftermath of winter inactivity. Flush your intestines with a mild laxative and clean out the accumulated wastes, easy to take, they do not gripe. Dr. King's New Life Pills will clear your complexion and brighten your eye. Try Dr. King's New Life Pills to-night and throw off the sluggish winter shell. At druggists, 25c.

WOMAN TAKES MAN'S JOB AS HEARSE DRIVER

Pueblo, Colo., Oct. 20.—War has resulted in woman filling a new berth in this industrial city, and the old maxim that has been revised to "The hand that rocks the cradle drives the hearse."

Mrs. J. T. Brown is the new chauffeur of the hearse of a prominent undertaking concern. She says leading a cortege containing weeping relatives of the deceased was very depressing at first, "but now I just watch the road and never think what the sad occasion of the trip is."

The hearse was formerly driven by a man who enlisted in Uncle Sam's liberty army.

AN OPERATION AVERTED

Philadelphia, Pa.—"One year ago I was very sick and I suffered with pains in my side and back until I nearly went crazy. I went to different doctors and they all said I had female trouble and would not get any relief until I would be operated on. I had suffered for four years before this time, but I kept getting worse the more medicine I took. Every month since I was a young girl I had suffered with cramps in my sides at periods and was never regular. I saw your advertisement in the newspaper and the picture of a woman who had been saved from an operation and this picture was impressed on my mind. The doctor had given me only two more days to make up my mind so I sent my husband to the drug store at once for a bottle of Lydia E. Pinkham's Vegetable Compound, and believe me, I soon noticed a change and when I had finished the third bottle I was cured and never felt better. I grant you the privilege to publish my letter and am only too glad to let other women know of my cure."—Mrs. T. J. McGowan, 3222 Hartsville Street, Phila., Pa.

THE BEAUTIFUL GULF COAST REAL PLAYGROUND

The beautiful thing about the Gulf Coast, between New Orleans and Pensacola is that it is a real playground, summer or winter—a playground for northern folk from November to May, and for Southern during the summer months. You can't ask for much more of placid nature than has been expended on the gulf littoral between New Orleans and Pensacola. There are pine woods, forests of live oaks, all moss hung and mysterious, long stretches of winding, shaded roads, woodland paths, quaint southern hamlets and modern resorts teeming with gaiety and active life; lovely retreats where you can swing in a hammock all day and drowse in the narcotic air. And there is the sparkling water, the beach, the surf, boating, fishing—anything and everything that calls from the salt water side.

Going south on the Louisville & Nashville Railroad, after you leave Mobile, it is impossible to escape the infection of joyous living, even if you wanted to do that. At every stop throngs of people are going and coming—youth and age alike, getting on or off the trains. Laughter and breezy, sunny, fragrant air greet you. It is moreover a place of sane, natural outdoor joys in surroundings of homely comfort or of luxurious ease, whichever you prefer. It is a locality of ancient and honorable traditions and the natives are descended from holders of the soil

since the first days of the white settler. They make you welcome with a stately, southern hospitality, and have put at your disposal the best their home land affords. Every resort and every old plantation home is shaded by age-old ancestral oaks and grown over with trailing vines, roses and perennials; and they all look out over the gulf waters, at the dancing waves, the scudding sails, the beach and the surf. If you can't find happiness down there in the golden sunshine and among the countless diversions and attractions of that playground, don't go south in the winter expecting to find your "Promised Land," for you'll have only your trouble for your pains. No choicer spot exists and greater comfort is not to be found. The winter climate is ideal, not uncomfortably warm, but moderate and bracing, putting snap and ginger into the system.

Touring along the Gulf Coast is one of the ways travelers take to find their own particular choice—and for this purpose the train service of the Louisville & Nashville Railroad is convenient. You can stop everywhere, beginning at Mobile, and stay a few hours, a few days or as long as you wish. It is a fascinating vagabondage that will bring you eventually to the place of your ultimate desire. You can, also, if you choose, ship your motor car to Mobile and go in for regular touring along the gulf—the roads are all good and the country is fascinating in the extreme. History lends its background of fact to a long list of interesting traditions and romantic legends concerning this locality, and the "atmosphere," while wholly American, has the foreign flavor in sufficient degree to give it diversity and variety. Topographically, the coast lies low and curving, rising gently toward the hinterland, which is forested with pines, broken in the clearings, by rich and productive farmlands. The shore line is much indented, the numerous bays, "bayous," "sounds" and lakes giving a seemingly endless and all-surrounding water scene. Lying off the shore is a line of islands, forming the outer bulwark of Mississippi Sound, and fronting this are the resorts that have been famous since pre-revolutionary days—the towns which began as of the French colonies, begun under the brothers de Bienville and d'Iberville.—Advertisement.

Notice of Discharge in Bankruptcy.

In the District Court of the United States for the Western District of Kentucky.

In the matter of Silas J. Tichenor, a Bankrupt.

On this 18th day of October, A. D., 1917, on considering the petition of the aforesaid bankrupt for discharge, filed on the 17th day of October, A. D., 1917, it is ordered by the court that a hearing be had upon the same on the 24th day of November, A. D., 1917, before said court at Louisville in said district, at 10 o'clock in the forenoon, or as near thereto as practicable, and that notice thereof be published one time in Hartford Republican, a newspaper printed in said district, and that all known creditors and other persons in interest may appear at said time and place and show cause, if any they have, why the prayer of said petitioner should not be granted.

Witness the Honorable Walter Evans, Judge of said Court, and the seal thereof, at Owensboro, in said district, on the 18th day of October, A. D., 1917.

UNITED STATES FOOD ADMINISTRATION

Washington, D. C., Oct. 17, 1917.

To All Federal Food Administrators: A statement has appeared in Chicago papers that the United States Food Administration has the intention of reducing the hog price to \$10.00. This statement is absolutely untrue, and has caused a flood of inquiries to which the following is a sample of our reply:

Chicago advises absolutely untrue and do not represent opinion or proposed action of the Food Administration, which will take no steps to jeopardize live stock producers interests. All our power will be used to keep prices at which allied and governmental purchases are made, on a plane that gives an assured return of cost and profit to producers of meat animals. In our opinion the best market obtainable for the present corn crop of the country will be through live stock. We need increased production of beef and pork and the only way to secure this increase will be by a profit on production. Will appreciate your giving this widest publicity.

Faithfully yours
HERBERT HOOVER.

They would not let Teddy go, but
he sent his four boys to the war.

The Herald was in error about the
date of the shouting. It was done
here Wednesday.

Russian Arctic winter stands just
now as the single barrier against
German spoliation of the great
Northern Empire.

We suggest that at the next elec-
tion our Democratic friends retain
one of Hartford's Republican law-
yers as counsel.

The present Superintendent has
certified Prof. Howard's qualification
for office by granting him a certifi-
cate with a grade of 94 1/2.

It must have been embarrassing
to editor Coombs, after writing those
perfectly lovely editorials, to discover
the election was already over.

The bag is stored away and the
pole to support it lies in front of
the court house yard but the pa-
triotic hands to raise it—where are
they?

It was fearfully wicked of that
Democrat who said, "It looks like the
man we depended on to push the
ticket through had pushed it into the
ditch."

Was it a stupid oversight or a
subterfuge to avoid the embarrass-
ment of a humiliating defeat that the
Democrats did not qualify to go on
the ballot?

Condolence to Editor Coombs, of
the Hartford Herald. Mr. Coombs
made a valiant fight for his party
ticket and must feel "drifted"
disappointed when his candidates
were found asleep at the post.

Tuesday morning a miniature
snow storm reminded the people of
Hartford that autumn was ended and
winter was at hand. Now for the
pop-corn and hickory nuts, and the
long winter nights that delight alike
the young and old.

There are evidences now that the
high cost of living octopus that has
had the American people in its grasp
for several years, is slowly loosening
its tentacles, and a downward ten-
dency in the price of food products
already apparent will be continu-
ed.

Will the Hartford Herald explain
to the taxpayers why it was necessary
to increase the Superintendent's
salary \$180 a year under the
guise of clerk hire? And if the pres-
ent Superintendent is re-elected will
he have to be furnished for the next
four years a salaried clerk at the
tax-payers expense?

Republicans should not, on ac-
count of the failure of the Demo-
crats to get on the ballot, relax their
efforts to get out the full Republi-
can vote. The Democrats, it is re-
ported, will probably center their
strength on the Socialist ticket, and
it is important that every Republi-
can goes to the polls November 4.

"Elect Judge Glenn County
Attorney and Magistrates that
will follow his advice on legal
points, etc."—Hartford Herald.
It seems to us that after failing to
get himself or his fellow candidates
on the ballot this week that even the
Democrats won't be very strong on
following Judge Glenn's advice on
legal points.

History for all ages to come will
refer to this as the Great World War.
And out of this painful flow of blood
and tears, out of this deluge of heart-
aches and sacrifices, out of this hur-
ricane of hate and passion will come,
as from a crucible, a new civilization
and a new social order, that let us
indulge the pleasing hope, may be
after all worth the price.

People who have traveled over
much of the country report that no-
where have they seen finer crops
than grow in Ohio county this year.
The present crop, when sold, will
probably bring into the county twice
the volume of money any other crop
ever sold for, and Ohio county farm-
ers, and business men as well, will
have the most prosperous business
year in the county's history.

We would not like to raise any
false hopes in the minds of the peo-
ple at interest but we will give it
for what it may be worth that there
is a rumor in circulation that appears
to come from high officials of the L.
& N. Company that there is some
prospect of putting another train on
the M. H. & E., starting from Evans-
ville in the morning, running to El-
mitch and returning to Evansville
in the afternoon. Just when the
new train may be put on if at all we
are not advised.

The most neglected feature of
the education of the average boy
is physical training. A strong vigor-
ous body is the best asset of the
young man just entering into the
world's contest where in business as
in health only the fittest survive.
Train the boys to harden his muscles
and develop his power of endurance,
so if called from the counting room
he could coal the bunkers of a ship.
The man under forty years old,
whatever the ease and softness of
his position, who cannot go to the
harvest field and perform a day's la-
bor is not fitted for life.

There are indications that the pri-
mary election, for which there was
such a popular clamor a few years
ago is losing in popular favor. It is
pointed out with some color of fact
that the primary election system has
lowered the general standard of ef-
ficiency in the public service, and is
no truer from fraudulent practices
than the former convention system.
But one of the most objectionable
features of the primary is the num-
erous contests in the courts over
nominations for office, involving much
cost and trouble to the parties at in-
terest and resulting in annoying de-
lays and confusion. This world is
pretty full of wrongs the remedy for
which is more easily found in theory
than in practice.

**CHICAGO FOOD PRICES
FIXED BY DICTATOR**

Chicago, Oct. 23.—Government
supervision of food prices went into
effect in Chicago today when the first
of the daily prices which Harry A.
Wheeler, Food Administrator for Illi-
nois, considers fair, were announced.
Prices as they change will be pub-
lished daily, and from time to time,
as the Price Committee can agree
on prices, other staple articles will
be added to the list. The prices the
retailer should pay the wholesaler
also will be published, so that the
consumer may know what the com-
mittee considers a fair profit for the
retailer. The prices given out to-
day include flour, sugar and pota-
toes.

The prices fixed today as fair aver-
ages are about what are being asked
by representative grocers in Chicago.
The price fixed for flour in quarter
barrel sacks is from \$2.95 to \$3.15,
for which retailers recently have
been asking \$3.15. On eighth bar-
rel sacks the price was fixed at \$1.45
to \$1.60 as against \$1.50 asked by
the retailers. Five pound sacks were
listed by the Food Administrator at

34 to 37 cents and retailers were
quoting it at 35 cents.

Potatoes jumped in price over-
night and were quoted by the Food
Administrator at 43 to 46 cents a
peck, while the grocers were selling
them at 40c to 43 cents.

Sugar prices were fixed at 7 3/4 to
8 1/2 cents a pound, while dealers
were asking 9 1/2 to 10 cents.

The scarcity of sugar, however, has
compelled retailers to pay fancy
premiums in order to get enough to
supply their trade. Sales in nearly
all cases today were limited to two
pounds to a customer when other
goods were purchased.

Not All Grocers Agree.

Reports from railroad officials
promise some relief from the pres-
ent shortage of sugar. It was re-
ported that a shipment of three hun-
dred cars was on its way from the
West. This shipment is said to be
practically the first of the new fall
crop and is expected to be followed
quickly by others.

Mr. Wheeler points out that not
all grocers have agreed to abide by
these prices. The remedy suggested
is for consumers to refuse to buy
from all grocers who charge higher
prices.

ZEPPELIN RAIDS COMES TO GRIEF

**FIVE GREAT GERMAN AIR MON-
STERS SHOT DOWN BY THE
FRENCH.**

Paris, Monday, October 22.—Offi-
cial examination of the crews of the
Zeppelins captured in France on re-
turning from the raid over England
shows that the expedition consisted
of thirteen airships which left singly
from three depots on the night of
October 19. The raid was ex-
pected to last from twenty to twenty-
five hours.

The raiders made for the English
coast, which was recognized by light-
houses. They were hampered con-
siderably by the fire of British anti-
aircraft guns and by numerous
searchlights which caused them to
drop almost all their bombs when
sailing at a height of more than 16,
000 feet.

They were caught by a strong
northeasterly wind, and when they
attempted to return to their bases
their speed was slackened by the
persistent head-winds. At dawn the
L-49, the airship which fell intact
into the hands of the French, dropped
to a lower altitude, her com-
mander believing he was over Hol-
land or Westphalia. The crew waved
white flags. It was not until after
8 o'clock in the morning that the
commander became certain he
was in France, and at the same time
the Zeppelin was sighted by French
airplanes, which forced it to land.
A little later the L-56 passed over
the L-49, which was then on the
ground surrounded by French air-
planes. The L-56 maneuvered for
a landing in a neighboring wood to
give the members of the crew as
good an opportunity as possible to
save themselves, but one car was
torn off. Part of this crew escaped
by means of parachutes. The car
afterward was destroyed by means of
special pistols firing inflammable
charges.

The L-49 and L-56 belong to the
super-Zeppelin class, measuring 650
feet. Their volume is 55,000 cubic
feet. The crews are made up
mostly of petty officers who have un-
dergone a special course of instruc-
tion. They were clad warmly in furs
and leather garments.

FOOD PLEDGE IMPORTANT FACTOR IN WINNING WAR, SAYS SACKETT

**Federal Food Administrator for Kentucky Explains
Reasons for Card Campaign Next Week**

To the Housekeepers of Kentucky:
DURING the week beginning Sunday, October 28th, a campaign will
be conducted in all parts of the United States for signatures for
the Food Conservation Pledge prepared by Mr. Herbert C. Hoover,
the National Food Administrator.

The canvass will be made dur-
ing the week in question by the
patriotic women who have joined
the organization of the Food
Conservation Division of the Coun-
cil of Defense in each coun-
ty of the State, and the object of
this address of the Federal Food
Administrator for Kentucky is
to explain exactly what will be
asked of the housekeepers of the
State of Kentucky, why it is asked
and what may be accomplish-
ed for our country and our-
selves.

We wish to say at the outset
that the campaign is city wide,
state-wide and nation-wide. No
sectarian or denominational
lines are involved. The campaign
is endorsed by the clergymen of
all the churches of the state, by
our leading professional and
business men, by all who under-
stand the importance of food
conservation as a factor in win-
ning the war.

Form of Pledge.
It is best to state exactly what
will be asked by the canvassers
of the housekeepers of Ken-
tucky. They will be asked, first,
to sign the Pledge Card of the
United States Food Administra-
tion. What does that card bind the housekeeper to? Here it is, so all
may judge for themselves.

To the Food Administrator:
I am glad to join you in the service of food conservation
for our nation, and I hereby accept membership in the United
States Food Administration, pledging myself to carry out the
directions and advice of the Food Administrator in my home,
insofar as my circumstances permit.

This is the pledge and the entire pledge. There are no dues of mem-
bership. Signers will then be asked to hang in the front windows of their
homes cards bearing the shield of the United States in colors attesting
the fact that they are members of the organization.

What the Pledge Means.
It is wise, we think, to say a few words in regard to the pledge. It
means no more and no less than it reads. It will be observed that signers
of the pledge are not asked to bind themselves to any particular things.
They are not asked at this time to promise to observe meatless days or
to abstain from using any particular kind of food. They simply agree to
carry out the directions and advice of the Food Administrator "insofar as
their circumstances permit." We are aware that conditions differ in dif-
ferent homes; that what is only a sacrifice to one may, under unusual cir-
cumstances, be an impossibility to another. Therefore the qualifying
clause "insofar as my circumstances permit" appears in the pledge.

This qualifying clause brings the exemption of the Food Administra-
tor's advice down to the individual conscience of the housekeeper who
signs the pledge. It is not expected that because of this qualification the
pledge will go as nothing. It is, in fact, our hope and belief that those
who sign this pledge will consider themselves units in a great army of
American housekeepers who propose to serve their country and them-
selves by following as closely as may be possible the directions and advice
of the Food Administrator, knowing as we do that those directions will
be reasonable.

It seems hardly necessary for us here again to contradict the foolish
rumors that have been circulated that it is the plan of the Food Adminis-
tration to seize food found in private homes. No such thing was ever
contemplated and will not be contemplated. Such a report is enemy
propaganda purposely designed to defeat the objects of this great conser-
vation movement.

Importance of the Work.

We feel that we can add little to what has already been said by the
President, by Mr. Hoover, and by others qualified to speak on such sub-
jects in regard to the importance of food conservation during the coming
winter, and yet, as a housekeeper, speaking to housekeepers, I wish to say
that we understand the importance of this work and believe that the
housekeepers of the state will understand it.

Our country is engaged in a great war. Our sons are going out to give,
if necessary, their lives for our country. These brave boys are willing to
make, if necessary, the supreme sacrifice, that American ideals may
endure, that American homes may be kept safe from the invader. All of
us have work to do at this time and the work that may be done in the
individual homes of America in avoiding waste and saving food may prove
not the least effective move in winning the war.

Kentucky goes into the present winter in some ways well prepared.
Employment is general, but prices are very high. The less that is wasted
in the average household the less will have to be bought. The prices of
foodstuffs offer an inducement to prudence, but unless there is organiza-
tion and co-operation, the food that is saved in one home will be wasted
in another.

Real Emergency Exists.

The men who are patriotically working in Washington for the country
and in charge of this mobilization movement of our food know that a real
emergency exists. The 1914 harvest left us no surplus. The 1917 harvest
is in and they can count on the food that can be used for ourselves, for
the allied nations and for our men at the fighting front. They know that
if the same prodigality in the waste of food continues in America, if the
same bounteous hospitality and lavish use is maintained in our own homes,
there will not be sufficient available to maintain the armies who are fight-
ing our battles on the western front of Europe.

They do know, however, that if there begins at once a concerted
movement in all American homes to eliminate all unnecessary waste, a
movement to follow the advice of the Food Administrator for the substi-
tution of some foods for others which we are short, that the cumulative
effect of that movement, covering throughout the country 23,000,000 Ameri-
can homes, will provide during the coming winter the food that will be
necessary for us to export, in order to keep the civilian populations of
France and England supplied, the armies upon the battle line and the
wonderful army now being prepared by the United States, in their best
fighting condition.

It is a real emergency in which they appeal to us, an emergency which
can be met in no other way, and they are issuing this call to the women of
America to look upon this matter in all seriousness and to be assured that
the sacrifices they will make during this coming winter will provide the
food which the President of the United States has said is one of the three
great elements necessary to winning the war.

No suggestions will be issued that are not felt by those in authority
to be extremely necessary, but they do hope that the people of America
will respond to these suggestions as patriots determined to do their bit
for the cause of civilization throughout the world and the maintenance of
democracy.

F. M. SACKETT,
Federal Food Administrator for Kentucky.

A Reformer's Prayer.

Oh, Lord, we beseech you to de-
stroy all those who laugh and get
real enjoyment out of life. And,
oh, Lord, while we have had every-
thing that we are now trying to stop,
we pray that you listen to this pray-
er. Oh mighty ruler, we are now
too old to enjoy these things, so lis-
ten to our supplication and damn
those that don't think as we do. Yea, world.

F. M. Sackett.

CIRCUIT COURT AT HAWESVILLE

JUDGE SLACK AND COMMON-WEALTH'S ATTORNEY SMITH AT THEIR POSTS.

Hawesville, Ky., Oct. 22.—The Hancock Circuit Court convened in regular session in this city at 9 o'clock this morning. The court house was well filled with towns-people and husky farmers and their sons and daughters from the country-side. At 9 a. m., the appointed hour, Judge Slack rapped for order and Clerk McAdams was directed to read the orders of the last day of the last regular term. This duty performed, Deputy Sheriff Fuqua, in accordance with directions, so to do, called the names of those who had been summoned for services as grand jurors. After the completion of the panel, Judge Slack charged the jury as to their duties, and they repaired to the room provided, to begin their investigation as to the infractions of the penal laws. The petit jury was quickly empaneled and the docket of commonwealth cases was called for trial.

The most important criminal case on the docket for trial at this term, Com'th. vs. Bertrum Staples, charged with seduction under promise of marriage, was called for trial. Commonwealth's Attorney Smith promptly announced ready for trial. Counsel for the defendant announced not ready and filed the affidavit of his client as to what absent witnesses would say if present, which the Commonwealth's Attorney declined to admit as the depositions of such absent witnesses and the case was continued for the defendant, until the January term. There remained only a few unimportant cases which were disposed of in regular order.

There are but few civil cases for trial, and the court will make an effort to complete its labors by adjourning hour Wednesday, at which time it is believed that the business for the term shall have been completed.

HARTFORD ATTORNEY TOUCHED BY TEARS

While waiting at a Louisville depot, a few days ago, for a Frankfort train a Hartford attorney noticed a young family of man, wife and baby whose tears indicated distress, and upon inquiry was informed that the man had just been drafted for army service, and that the wife and baby had made the trip from a central Kentucky town to Louisville in order to spend the last possible moment with husband and father. While on the way over to Frankfort the attorney, whose heart had been touched by the tears of the separating family, approached the mother with the inquiry why her husband had not been exempted from the service, and from her simple answer discovered that the people were poor and ignorant and were not aware that the husband was entitled to an appeal from the service to which he had been called through some error of the exemption board. Be it said to the softness of the attorney's heart that he made notes of the circumstances of the case, and voluntarily, without hope of any other compensation but the love of justice and sympathy for a heart-broken wife and mother, began at once the prosecution of an appeal to secure the release of the unfortunate man from service in the army.

Dr. H. B. Washburn will be at the Commercial Hotel, Beaver Dam, Ky., during the week commencing with Monday, October 15th, and on each third Monday and the week following, thereafter, to do all kinds of first class dental work at reasonable prices. 1514

The Socialist party has named candidates for County offices as follows: Representative, Alvin Chinn; County Judge, P. N. Woodruff; County Clerk, M. L. Ament; Sheriff, J. M. Shultz; Jailor, J. H. Chapman; Assessor, T. J. Phelps. For Magistrate they have two candidates: H. L. Render, McHenry, and E. P. Sandefur, Cromwell. There is no candidate for County Attorney or School Superintendent on their ticket.

Sheriff S. O. Keown bought an Overland last week. He and Mr. Harold Hotbrook went to Louisville Saturday by the way of Owensboro and Jasper, Ind. Mr. Keown left the machine in Louisville for the use of his son, Lieutenant Gilmore Keown, who is stationed at Camp Taylor.

STRAIGHT AHEAD IS ALLIES PLAN

DEATH DRIVE OF ALLIES WILL KNOW NO WINTER'S STORMS.

New York, Oct. 23.—A mighty and unexpected French blow, struck at the German line, netted tri-color troops two miles of territory, 7,500 prisoners and 25 guns this morning.

The loss is recorded along with the sinking of fifteen Teuton warships by the Russian fleet, and the loss of half Germany's effective force of super-Zeppelins.

The French fought one of the most cleverly conceived and most brilliantly executed actions of the war. More than one thousand prisoners belonging to the Fifth Prussian Guards were taken, and the French still continue their victorious progress.

The battle opened before dawn along a nine-kilometer front, from the northeast of Laffaux, about the neighborhood of Vauxaillon to La Royere Farm. Amid inky darkness, the French troops left their trenches and with a terrific barrage fire from the most powerful concentration of French guns ever gathered on such a short front preceding them, and made their way forward, into and over the first German positions, sweeping all resistance aside.

Altogether, six German infantry divisions were aligned, facing the French attacking forces, but none of them was able to withstand the onslaught. The advance continued like clockwork.

A correspondent observed the battle from a point whence he could see the entire line and was able to watch the precision with which the artillery prepared the German for the advance of the infantry and the methodical manner of the infantry's progress.

The French attack is one of the most important gains of terrain since they threw back the army of the German crown prince, which was besieging Verdun.

The stroke was made over a front of about six miles, from the east of Vauxaillon to Pargny-Filain. Under rainy and generally unfavorable weather conditions, the French pushed forward all along the line, aided by audacious aviators who flew over the German positions at an altitude

of about 150 feet, using their machine guns, and penetrated the German line at one point to a depth of two and a fifth miles.

The greatest depth of the drive was in the center of the line, where the village Chavignon was captured after a violent struggle which resulted in the enemy fleeing pell mell. Some of the best troops in the army of the German crown prince were engaged in endeavoring to hold back the onslaught, but their efforts were unavailing under the enthusiasm of the French to win positions which would place them more advantageously to press on later toward Laon.

For about a week the French artillery had been hurling tons of steel into the German line in front of them in preparation for the drive, and when it was started had havoc already had been wrought by the guns. In addition to the prisoners taken by the French, the Germans also suffered heavy casualties.

The latest advices concerning the naval activities in the Gulf of Riga between the Germans and the Russians show that although the Russians lost the battleship Slava and a large torpedo boat destroyer, the Germans were the heaviest losers. Two of their dreadnoughts, one cruiser, twelve torpedo boats, one transport and numerous mine sweepers, were put out of action by the Russian fleet. While the exact fate of these vessels has not been ascertained by the Petrograd government, it is announced that at least six of the German destroyers were sunk.

Further German attempts to land forces on the Estonia coast to the North of Werder have been repulsed by Russian detachments.

Farm Department

To Combat Animal Diseases.

A more intensive fight than ever before will be waged by the United States Department of Agriculture on hog cholera and the cattle tick with funds made available by the recently enacted food production bill. Between them, hog cholera and cattle-tick fever cause annual losses of approximately \$60,000,000. In an effort to stem these losses and so, in effect, to increase meat production, the department will put a greatly enlarged staff of specialists to work in the field within the next few weeks. Tick eradication, which is essential to building up cattle raising in sections of the South now infested by ticks, will be extended in all affected States. Twenty-five veterinarians will be added to the department's staff to carry on the work against hog cholera throughout the hog-raising sections of the country.

What is Available Plant Food?

Every reader of a farm paper has encountered frequently the expression "available plant food." It means the plant food which will readily dissolve in the soil water so that the plant can take it up. In the animal stomach there are certain digestive fluids that dissolve the food so that it can be absorbed into the blood stream. The soil must serve as a stomach for plants, and as the plant food dissolves in the soil water it is absorbed into the plant juices and moves up, giving a constant circulation. From this it can be seen that only dissolved plant food can be used. Almost all soil materials can be dissolved to a slight extent, but often the rate of dissolving is too slow.

Two Methods For Curing Pork.

Hog killing time is coming. It is especially important this year that each family cure an abundant supply of meat. Two methods of curing pork are offered.

DRY CURE. Do not cut up the pork till the carcass is well chilled. Make a mixture of clean, fine salt 40 pounds, white or brown sugar 10 pounds, white or black pepper 4 pounds, red pepper one-half pound. This will make enough cure for about 1,000 pounds of pork. If saltwater is desired, use 2 pounds in the above mixture. It will give a red color to the lean meat, but has a tendency to harden the meat too much. Chili saltwater may be used instead of the regular saltwater by taking about 20 per cent less.

Rub each piece of meat thoroughly with the cure. Take special care to work the cure around the ends of bone of hams and shoulders. Pack skin down on a table or in a box in a cool, airy place. Do not place in direct sunlight or in a damp, musty cellar. After four or five days overhaul the meat, rub thoroughly with the cure and repack; repeat this in about a week. Hams and shoulders should remain in the cure from 1 1/2 days to 2 days per pound weight of piece; the latter time is safer for meat that is to be kept during the summer. Bacon should be in the cure a shorter time. Ten days will give a very nice, mild cure to a six or eight pound piece.

BRINE CURE. Make a brine by boiling 7 pounds of clean salt and 2 pounds of white or brown sugar with two gallons of water. If saltwater is desired add one-fourth pound. This gives about enough to cover 100 pounds of pork when well packed. Sprinkle a little clean fine salt in the bottom of the barrel, rub each piece of meat lightly with salt, sprinkle a light layer of salt between each layer of meat. Put on a board and weight down with a rock. Allow to stand over night. Tip barrel on side and allow the liquor to run out. Cover the meat with the cold brine and allow to stand in a cool place 4 or 5 days. Overhaul, repack, and cover with the same brine. Repeat in about a week. Give the meat the same length of time for curing as with the dry cure.

When the curing is complete, wash off the excess cure and hang in the smokehouse. Meat kept in the cure too long should be soaked in warm water to remove the excess of the cure. Smoke with hickory, oak, apple, or any non-resinous wood. Avoid all wood of the pine family. With a continuous smudge the smoking can be completed in 24 hours. With intermittent smoking longer time is necessary as cold meat "takes the smoke" slowly. Wrap the meat to keep it away from the skippers. If rats or mice get at the meat they open a way for the skippers. In damp weather cured meats will mold. This is not injurious except it is advisable to use up shoulders, as the mold grows in the cracks and calls for excess trimming.

Ration Determines Profit of Pork Gains.

Pork can be produced at a profit even with the present high price of feeds. This together with the fact

that the ration received by fattening hogs has much to do with the economy of pork production has been shown clearly in demonstration feeding tests conducted at the St. Joseph (Mo.) stockyards by the University of Missouri College of Agriculture and the Kansas State Agricultural College working in co-operation. R. M. Watkins, manager of the demonstration feed yards at St. Joseph, presents the following data concerning the cost of producing pork with the various rations.

The result given are the average of four successive ninety-day feeding periods conducted at the demonstration feed yards. A ration of shelled corn and tankage required 389 pounds of shelled corn and 28 pounds of tankage to produce 100 pounds gain. The cost of gain was \$15.15 a hundred. A ration of shelled corn and linseed meal required 415 pounds of shelled corn and 27 pounds of linseed meal to produce 100 pounds gain. The cost of gain was \$15.63 a hundred. One period of feeding shelled corn, tankage and shorts showed approximately the same cost as shelled corn and tankage. The feed prices upon which these figures are based are corn \$2.00 a bushel, tankage \$4.50 per hundred pounds, linseed meal \$3.00 per hundred pounds, shorts \$2.50 per hundred pounds.

Feeders will note that pork can be produced, with feed at its present high price, at about \$15.00. With pork at \$18.00, this makes a margin of nearly \$3.00 to insure a reasonable profit. The unanimous opinion of the best authorities is to the effect that the present high price of hogs will be maintained for some time to come because of the demand for pork products and the apparent scarcity of them. The fact should also be considered that if crops can be fed on the farm, and made to bring as much money as they would if sold, that the fertility left on the farm makes that method highly advisable.

You Should Conserve The Farm Machinery.

Put your farm machinery in sheds, and fix it up in tip-top shape this winter. The shed will cost some more than it did before, but the advance in building materials generally has not been nearly as great as has that on machinery.

Second-hand machinery will be worth money from now on. Saving the paint on it will make it sell better. Look the old corn binder over and see if new parts will not fix it up before buying a new one. If the grain binder bothered this fall, give a good overhauling at the first opportunity, and see what new parts it needs. Send for these parts and repair it. It will pay.

Farm machinery will not only raise higher in price but is very apt to be scarce for the next several years. The curtailing of the iron and steel now used in the manufacture of farm machinery is sure to come, and some preliminary reports state that the amount allotted to this purpose will be cut as low as one-half the amount used last year. In the past steel and iron have been so cheap we have formed a habit of wasting it. We must conserve it now. It is a business proposition and a patriotic duty as well.

Get houses ready for fall layers and put them in.

Indigestion comes from changing the food too suddenly.

Finish up your winter houses.

Farm animals must be comfortable in order that they do as well as possible. This is especially true of swine, since no farm animal suffers as much from extremes of heat and cold as the hog. Most men prefer to feed hogs in the spring and fall, for they say the hogs gain more at these times on the same feeds than during summer and winter. This is perhaps in a large measure true only because they are more comfortable.

Don't administer medicine on the "gun shot" plan.

Late spading or plowing for the garden is excellent for next year's crop.

Sow a cover crop, if the orchard is a cultivated one, to stand until next

CIVIC BODIES AND PRESS FAVORS THE AMENDMENT

There is wide spread interest throughout the state in the constitutional amendment permitting the purchase of one telephone company by another, which was adopted by the last Legislature, and which will be voted upon at the coming November election. Chambers of Commerce and civic bodies in a large number of communities have adopted resolutions endorsing the amendment and pledging their efforts towards its passage. Newspapers throughout the state are also endorsing the amendment and are urging the importance of a favorable vote by the people.

The amendment to the constitution, which is made a part of Section 201, is as follows:

"Provided, however, that telephone companies may acquire by purchase or lease, or otherwise, and operate, parallel or competing exchanges, lines and structures, and the property of other telephone companies, if the railroad commission or such other state commission as may have jurisdiction over such matters shall first consent thereto, and if, further, each municipality wherein such property or any part thereof is located shall also first consent thereto as to the property within its limits, but under any such acquisition and operation toll line connections with the property so acquired shall be continued and maintained under an agreement between the purchasing company and the toll line companies then furnishing such service, and in the event they are unable to agree as to the terms of such an agreement the railroad commission or such other State commission as may have jurisdiction over such matters, shall fix the term of such government."

Chambers of Commerce which have passed resolutions favoring the amendment are those at Bowling Green, Frankfort, Lexington, Shelbyville, Henderson, Middlesboro, State Chamber of Commerce of Louisville, and others.

Quite a number of newspapers have endorsed the amendment editorially, both at points where there are two telephone systems and in cities where there is only one system.

The Anderson News, Lawrenceburg, Ky., says:

"Two telephone lines in any community, both contending for supremacy, are a perfect nuisance. Two telephones in a private residence are too expensive to maintain; two telephones in a business house are an expensive necessity; therefore the General Assembly has come to the rescue of the people if they will accept its assistance and go to the polls in November and cast their vote for this amendment."

The Danville, Ky., Messenger says:

"It is hoped that the people will remember and vote for this amendment, as it is the only way in which the public in some localities will ever have decent service."

The Interior Journal, Stanford, Ky., says:

"The Interior Journal favors the amendment and will vote for it. One system answers the demand and two

are as annoying as they are useless. The demand is for good service, not for multiplicity of exchanges. Then, too, the expense of two systems must be considered. This is just double, and in some cases more than double. Oh! no, don't give us more telephone exchanges, but better service. This is the need of the hour. The amendment ought to carry."

The Bowling Green, Ky., Times-Journal says:

"We cannot too highly commend the Chamber of Commerce in its efforts to secure the adoption of this amendment by the voters. The Times-Journal is for the amendment, and will add its efforts to those of the Chamber of Commerce to bring about the adoption."

The Paducah, Ky., Sun says:

"The public interest is thoroughly protected under the proposed constitutional amendment, as no purchase can be made without the consent of the city council. The passage of the bill providing for the constitutional amendment and the practically unanimous vote it received in the General Assembly is evidence that it was passed in response to a wide spread and popular demand for relief from present telephone conditions."

The Middlesboro, Ky., Three States says:

"Three States has for a number of years in the past been a constant agitator for the one telephone system, showing where the one system could better and more economically serve the public than two or more systems. The expense of two systems is burdensome upon the public and the botheration and confusion of having the walls of your place of business lined with telephones, where one could do the work is sufficient reason why the public should demand one system."

Walter Earp Dead.

Mr. Walter Earp died at his home at Rosine last week. We were not advised of the funeral arrangements or of the place of burial. Mr. Earp was attacked by cancer about a year ago, on the lower part of his face and the fatal malady followed its usual rapid course until it resulted in his death. He leaves a wife and one child, a boy about fourteen years old.

Mr. Earp came to Kentucky about twenty years ago on a visit to relatives, and later married Miss Anna Allen at Rosine and located there. He was for several years a deputy sheriff under Sheriff Tom Black, and was later appointed postmaster at Rosine, which position he held at the time of his death. Mr. Earp was a man of the highest integrity and enjoyed the confidence of the public which he so long and so faithfully served. Of him it may truthfully be said "a good man is gone."
